### TOO LATE TO CLASSIFY

(By Russell Kay)

Monday, January 19, should remain a memorable date in State Road Department history for it was on this date that the first major parkway and recreational area, built by the department, was

officially dedicated.
Shortly after the state took over
Davis Causeway which connects
Clearwater and Tampa across upper Tampa Bay, Courtney Camp-bell, newly appointed member of the Road Board conceived the idea of developing the causeway into a beautiful parkway and recreation

reacultul parkway and recreation area.

The story of how Courtney Campbell achieved this dream is too thrilling and too amazing to attempt to tell in a mere column for it is a story of one man's faith and courage and determination that against every obstacle (and don't think there weren't plenty of them), worked and fought to make it a reality.

It is fitting indeed that the old bleak Davis Causeway make way for the new Courtney Campbell Parkway, which name it now bears, for the two have nothing in common. For today it stands as a shining monument to the state,

When Campbell started in on this project he didn't get much en-couragement. Folks said it would be nice and all that but where would you get the money for such a development. It would cost millions and the budget wouldn't stand it. At that time the worn-out roadway was patched here and there as it became almost impassable and Campbell put a stop to this and began building a perman-ent road section by section.

Realizing that it would be difficult to get an appropriation for the project and let the job on a contract basis, Campbell made use of the facilities at his command. He used road department materials, road department personnel and doing a little at a time finally got his parkway to a point where his vision could be seen and ap

### From Sheepskin to Sheep

There aren't too many college graduates in our town. Good honest thinking, yes...but most folks went from high school into farming.

No harm in that! But I admire veterans like Dick Newcomb... who's 23, but going to college under the G.I. Bill of Rights. Intends to be a sheep farmer—but a betterinformed, more scientific farmer, with more know-how!

tofore there was no place on Tam-pa Bay where the people of Hils-borough, Pinellas and surrounding counties could go for such an outing. At the beaches they found it cost them plenty and a trip there meant an expenditure of from \$15 to \$20 for the average family. Now they go out on the Parkway and have more fun at no cost at

No investment made by the State Road Department is paying bigger dividends today from a public service standpoint and none public service standpoint and none is more appreciated by the public at large. Everyone in the area is mighty proud of the new Court-ney Campbell Parkway and more and more are making use of it.

As the development began to take shape and it became evident that Campbell's dream was soon to become a reality, many private interests tried to figure out a way to cash in on it. They planned dance-halls, juke-joints, taverns and other commercial enterprises which they hoped to establish along this parkway. Some of these ambitious folks did all the politiambitious folks did all the politi-cal wire pulling in the world but Compbell stood firm and it is a real credit to the other members of the board and to the Governor himself that they stood back of-him to a man in their determina-tion to let nothing mar the beauty and value of this Parkway. Then came an oil lease outfit who want-ed permission to drill on the prop-erty. Aggain Campbell went to the mat and fought them to a standstill with the press and public backing him 100 percent. He wants this beauty spot to remain clean and safe and wholesome for the benefit of the people. He opposes the sale of intoxicating liquors anywhere near the Parkway but would like to see some reputable concern erect a beautiful building at each end where meals, coid

drinks, magazines and other ne-cessities might be had, with clean rest rooms, ample parking space, and with service for cars boats for rental and fishing tackle and bat available. It would have to be in keeping with the Parkway, of at-tractive architecture and property landscaped. This would be the only type of commercial enter-prise that Campbell would consid-er fitting. er fitting.

The quickest way across the street can be the most dangerous way. To cross in the middle of the block, rushing out from between parked cars, can be and too often is a short cut to accident — and death!

In Florida, 170 people were injured, 71 fatally, from these causes alone in our first peace year. In 75% of pedestrian accidents the victims were walking in such a way as to contribute to their own demise. Actually, drivers in relation to pedestrians are more careful.

Florida accident records for 1946 indicate that jaywalkers are even more plentiful and careless and are pushing the pedestrian casualty rate to a new high. Someone must do some life-saving — and that someone is you.

When you cross a street or highway be personally responsible for your own safety. Don't expect the other fellow to look out for you. Cross with the light if there is one — with greatest caution if there isn't. It's up to you to walk safely and live longer.

I feel that my work with the State has met with some degree of succes. and has contributed to its progress during the past decade. Whatever measure of success I may have had is attributed to the fact that early in life I learned that the public is entitled to fair, worthy, prompt and courteous service. I have endeavored to serve with industry and integrity, and to give maximum assistance, avoiding technicalities and bureaucratic methods.

January 25.

The Golden Text is: "Study to shew thyself approved unto God, a workman that needeth not to be a workman that headed have to a sashamed, rightly dividing the wori of truth" (II Timothy 2:15).

Among the citations which com-

prise the Lesson-Sermon is the foiprise the Lesson-Sermon is the for-lowing from the Bible: "Rejoice in the Lord, O ye righteous: for praise is comely for the upright. Praise the Lord with harp: sing-unto him with the psaltery and an instrument of ten strings. . For the word of the Lord is right; and all his works are done in truth (Psalms 33: 1, 2, 4). The Lesson-Sermon also include:

the following passage from the Christian Science textbook, "Sci-ence and Health with Key to the Scriptures" by Mary Baker Eddy: "This Science teaches man that God is the only Life, and that this Life is Truth and Love; that God is to be understood, adored, and demonstrated; that divine Truth casts out suppositional error and heals the sick" (471:31).

#### Florida Born Race Horses To Have Day

### **Grady Burton Plans** Vigorous Campaign

WAUCHULA-Speaking before a civic group last week, State Attorney Grady Burton, candidate eral said:

"It may not be unfortunate that hie office of Attorney Gen-eral as well as a campaign for election to that office does not create the interest and excitement that some of the other state and county offices develop. It probably is due to the fact that this office is not glamorous, nor it is sur-rounded with great patronage and policy making, but it may be look-ed upon more as the work horse of the administration and executive branch of government. It is not the proving ground for pet theories of government, taxation

of personal ambitions but is charg-ed with the responsibilities of safe, sound and conservative thinking that the legal rights and privi-leges of the state and its citizen-ship shall be protected and preserved."

Burton reports that he is making splendid progress in his campaign and has mapped out a vigorous program between now and election day that will take him into every county in Florida.

Join the 11,200 pedestrians KILLED last year!

Don't go home to-night. Go to the hospital-or the morgue!

Why be around to-morrow, next week, or next year? Go on—dash through traffic when and where you shouldn't. Ignore red lights and safety signs. Make a face at the traffic cop who's trying to protect you as you tear by — hurrying to go — where?

Be impatient. Hurry, hurry and join the 11,200 pedestrians who were killed in the United States last year. 195 of them were neighbors of yours in Florida.

But perhaps you don't like the idea. Maybe you enjoy living and don't want to rush into Kingdom Come prematurely. That's different—and the answer is simple. Don't hurry. Wait just the few seconds it takes the light to go green. Don't take a short cut across the middle of the block, drivers aren't looking for you there. And no matter when or where you cross a highway, be alert. Walk safely and live longer.

Thirty-five young married folks were present at the last meeting of the Young Married Fellowship. The occasion was a barbecue around the MYF barbecue pit behind the church. The thirty-five managed to "put away" forty pounds of ribs barbecued by Pong-Sears and Osie Upthegrove, with Osie making his famous barbecue sauce. Guests for the evening included the "Babe" Upthegroves and Rev. and Mrs. J. W. Green-wood and daughter Madelyn of Detroit. Hosts of the evening were the Pope Sears and the Blairs.

The theme of the Morning Worship service will be based on the first verse of the twenty-first chapter of Revelation: "And I saw new heaven and a new earth: for the first heaven and the first earth. the first heaven and the first earth were passed away; and there was no more sea." The sermon will be entitled. "No More Sea". In the evening service at 7:30, the min-ister will bring the third in a series of sermons on Hebrews 12:1,2, a sermon entitled "The Commander of the Faithful".

Sunday, February 1, promises to be a big day for our church. Rev. Henry W. Blackburn will be in our church for the morning service at 11, bringing the message of the morning. This will be followed by "Dinner-on-the-grounds".
